WHOLESALE PRICE LIST
OF
Choice Seeds and Plants

1909 -- 1910

RAISED AND FOR SALE BY

FRED GROHE

Santa Rosa - - - California

To My Customers

In presenting this list to the trade I wish to state that all the seeds I offer are raised by myself and are strictly reliable and as good as careful selection and retaining only the best flowers for seeding can make them. My rule is to send out only the best and a liberal count and weight of seeds. A trial order will convince you.

Should any mistake occur, which I do my best to avoid, I am always ready to return your money or duplicate your order should the fault be with me, but in no case can I guarantee the crop. Sales conditioned on stock being unsold when order is received.

Plants are not prepaid. If wanted by mail be sure and send enough money to pay postage. Surplus will be returned. Seeds are postpaid. All plants packed as light as safety will permit. No plants sent C. O. D. unless one third of full amount is sent with order.

Orders from unknown parties must be accompanied by cash or satisfactory reference. Do not send checks for sum less than \$5.00.

Thanking my many friends for their kind support in the past, and hoping to be favored again, I am, respectfully,

Fred Grohe.

SEEDS

The seeds I offer are all of my own raising and are as good as carefully selecting and pollenizing can make them. All are raised under my personal supervision. I make a specialty of but a few of the best varieties so am able to furnish you the best in existence. I have named them my "Champion Strain" to distinguish them from other's strains.

Delphinium Hyb. Grandiflorum runs through all shades of blue from very light to almost purple, mostly with white eyes. Seed 1910 crop ready now.

"Champion Strain" Petunia Hybrida Grandiflora. My Petunias are better than ever this year and I can recommend my Strain as second to none. The flowers are of the largest size, measuring 3½ to 5 inches across. The colors are so many they are hard to describe. Some are self colored, but most of them are a combination of colors, some with white throats, others with yellow, or veined with violet, brown, yellow, and several other colors; others are pure white with lavender or crimson edges, some pink with five broad white stripes extending from bottom of throat to edge of petals. With many more different combinations which must be seen to be appreciated. "Champion Strain" Giants of California, per trade pkt. 25c, per 1000 seeds 50c, ¼ oz. \$2.50, per oz. 15.00
